## Department News

Three Psychology and Neuroscience instructors have won Distinguished Teaching Awards from the Office of the Executive Vice Chancellor and Provost!

Dr. Regina Carelli, a Stephen B. Baxter Distinguished Professor of Behavioral and Integrative Neuroscience is the recipient of a 2018 Distinguished Teaching Award for Post Baccalaureate Instruction. Dr. Carelli was chosen for her outstanding contributions to post-baccalaureate teaching on our campus and her commitment to the highest standards of teaching.

Dr. Kate Reissner, an Assistant Professor of Behavioral and Integrative Neuroscience, is the recipient of a 2018 J. Carlyle Sitterson Award for Teaching First-Year Students. Dr. Reissner was chosen for her commitment to excellent teaching and for being a passionate advocate for inspired teaching of first-year students.

Lillian Reuman, a graduate student in Clinical Psychology, is the recipient of a 2018 Tanner Teaching Assistants Award for Excellence in Undergraduate Teaching. Lillian was chosen for her outstanding contributions as a Graduate Teaching Assistant to undergraduate teaching on our campus and her exceptionally positive impact on the intellectual growth of her students.

Dr. Carelli, Dr. Reissner, and Lillian will be recognized at half-time of the UNC-Georgia Tech men's basketball game on January 20th. Congratulations!!

Dr. Kenneth Bollen, an Immerwahr Distinguished Professor of Quantitative Psychology is the recipient of the Psychometric Society's Career Award for Lifetime Achievement. The Psychometric Society Career Award honors individuals whose career have had a widespread positive impact on the psychometrics field.

## *News, continued.*

Ethan McCormick, a graduate student in Developmental Psychology, is the recipient of the 2017 Ernest C. Davenport Award for Outstanding Psychological Research by a Student Who Enhances Diversity. Ethan is receiving this recognition for his work with Dr. Eva Telzer. Ethan's research focus is interdisciplinary as he is integrated developmental psychology and cognitive neuroscience to understand how neural plasticity and learning change across development. For instance, Ethan re-conceptualized a widely used paradigm to ask a new question: how do children and adolescents change their behavior in response to feedback on the task, and how does the brain support this learning across time? Ethan has disseminated and published his findings in several top-tier journals and presented at national and international conferences.

Yen-Ping Chang, a graduate student in Social Psychology, has received an honorable mention for the 2017 Ernest C. Davenport Award for Outstanding Psychological Research by a Student Who Enhances Diversity. Yen-Ping is receiving this recognition for his work with Dr. Sara Algoe. Yen-Ping's research on emotion and positive psychology appears in top journals. For his dissertation work, he has developed theory regarding when, why, and how culture shapes the expression or demonstration of emotion, using the specific example of gratitude. Whereas most research on gratitude has focused on the experience of people in the United States, his predictions compare gratitude in Taiwanese and American samples.

Donte Bernard, a graduate student in Clinical Psychology, is the recipient of the 2017 Bernadette Gray-Little Award for Diversity Enhancement in Psychological Research. Donte is receiving this recognition for his work with Dr. Enrique Neblett. Donte's research examines the imposter phenomenon, or feelings of intellectual incompetence, among African American adolescents and emerging adults. He is interested in individual, cultural, and environmental factors that shape impostor experiences and his dissertation investigates the relations between racial discrimination, racial identity, psychological distress, and the development and maintenance of the imposter phenomenon.

Arun Nagendra, a graduate student in Clinical Psychology, has received an honorable mention for the 2017 Bernadette Gray-Little Award for Diversity Enhancement in Psychological Research. Arun is receiving this recognition for her work with Dr. David Penn. Arun's research focuses on African Americans with psychosis, with a particular emphasis on the effects of race on the measurement of symptoms associated with schizophrenia. Her research examining the interplay of psychosis and race is at the forefront of a crucial, yet often overlooked area within the field of clinical psychology. Additionally, in collaboration with fellow graduate students, she is utilizing differential item functioning across multiple NIMH data sets to determine if items on a standard psychiatric interview differ in their performance for White and Black Americans with schizophrenia.

Dr. Carol Cheatham, an Associate Professor of Developmental Psychology, has been named to the American Health Council Education Board. The Council is a multidisciplinary organization of healthcare providers and researchers commitment to improving Americans' physical and mental health. Dr. Cheatham will share her knowledge and expertise on the effects of nutrition on brain development with the Council.

## *News, continued.*

Dr. David Penn, a Wagner Martin Distinguished Professor of Clinical Psychology, has been named by Clarivate Analytics to its 2017 Highly Cited Researchers List. Clarivate Analytics has assembled an updated roster of more than 3,300 Highly Cited Researchers. These researchers have distinguished themselves by publishing a high number of papers that rank in the top 1% most-cited in their respective fields over a recent 11 year period. Such consistent production of highly cited reports indicates that the work of these researchers has been repeatedly judged by their peers to be of notable significance and utility. The citation analysis identifies the most frequently cited researchers as determined by the extent to which their papers have supported, influenced, inspired, and challenged other researchers around the globe.

9 of our Psychology and Neuroscience Honors undergraduates received Honors Thesis Research Grants from the UNC Honors College. The Honors Thesis Research Grants are intended to help offset the cost of conducting a Senior Honors Thesis and can help cover the cost of equipment, supplies, software, publications, transportation, and other expenses. All of the awards are made possible through generous gifts to the Honors College. Congratulations to this year's recipients: Chloe Berube Altieri, Lillian Dillard, Rachael Kang, Julia Katz, Kenny Le, Alex Martin, Saif Mehyar, Cortland Vis, and Elizabeth Wallace!

Congratulations to 3 of our Psychology and Neuroscience faculty members who are our 2017 recipients of the Stephenson and Lindquist Awards. The Stephenson and Lindquist Award is a departmental award and its purpose is to support the research activities of our faculty. This year's recipients are Dr. Anna Bardone-Cone, Dr. Sylvia Fitting, and Dr. Enrique Neblett!

Zachary Fisher, a graduate student in Quantitative Psychology, is the recipient of the 2017 Lyle V. Jones Award. The Lyle V. Jones Award is presented annually to a graduate student of the L.L. Thurstone Psychometric Laboratory who epitomizes both academic excellence and community engagement within the lab. Zack received the Jones Award on November 20 at the Thurstone Lab Thanksgiving Luncheon.

## *Inaugural Reznick Diversity and Psychological Grant*

Congratulations to Carrington Merritt, a Senior Psychology major, who is the first recipient of our J. Steven Reznick Diversity and Psychological Research Grant. Carrington works in Dr. Keely Muscatell's laboratory and will receive a \$4,000 Reznick Grant in Spring 2018. Her research interests are in how social conditions influence physiological and neural functioning, in turn influencing psychological well-being. In particular, Carrington is interested in investigation neurocognitive processes of Black individuals as they process ambiguous social feedback from racial outgroup members, given that such ambiguous interracial interactions are thought to have adverse physical and mental health effects on racial/ethnic minorities.

## Research Opportunities for Faculty

If you are interested in applying for any of these opportunities, contact Phil Lee, Grants Management Officer, at [palee@email.unc.edu](mailto:palee@email.unc.edu).

### National Institutes of Health

*NIH Research Project Grant (Parent R01 Clinical Trial Not Allowed)*
