## *Department News*

The Fall 2020 Karen M. Gil intern cohort faced significant challenges due to COVID-19, but they were still able to get a lot out of their internship experiences! Please enjoy watching their poster presentations and learning more about their internship experiences. Feel free to comment on their presentations with feedback, questions, or kudos. You can do so via [Flipgrid](#); log in using your UNC email address or enter KarenGil as your guest password.

Jessica Goldblum, a graduate student in Developmental Psychology, is a recipient of a 2020 UNC Carolina Institute for Developmental Disabilities (CIDD) Trainee Research Award. The CIDD supports two graduate student trainees each year with a \$500 award to assist with defraying costs associated with presenting research. Jessica will present at the Gatlinburg Conference on Research and Theory in Intellectual and Developmental Disabilities in April 2021.

Dr. David Penn, a Linda Wagner-Martin Distinguished Professor of Clinical Psychology, was named by Clarivate Analytics to its 2020 Highly Cited Researchers List. Clarivate Analytics has assembled an updated roster of more than 6,200 highly cited researchers who have distinguished themselves by publishing a high number of papers that rank in the top 1% most-cited in their respective fields over a recent 10 year period. Such consistent production of highly cited reports indicates that the work of these researchers has been repeatedly judged by their peers to be of notable significance and utility. The citation analysis identifies the most frequently cited researchers as determined by the extent to which their papers have supported, influenced, inspired, and challenged other researchers.

## *News, continued.*

Dr. Regina Carelli, Stephen B. Baxter Distinguished Professor of Behavioral and Integrative Neuroscience, is the recipient of a 2020 National Institute on Drug Abuse R01 grant. NIDA funds research that advances the science on the causes and consequences of drug use and addiction. Dr. Carelli received a total award of over \$1.7 million (over five years) for her project, "Corticolimbic Circuits in Negative Affect."

Dr. John Helminski, Adjunct Assistant Professor of Clinical Psychology, was recently recommended for inclusion on the roster of the Fulbright Specialist Program. Sponsored by the U.S. Department of State's Bureau of Education and Cultural Affairs, the Specialist Program matches highly skilled U.S. educators and professionals with host institutions abroad. Specialists collaborate on projects proposed by the host institution and conduct activities such as lecturing, training, and consulting. Dr. Helminski hopes to utilize his expertise as a forensic psychologist on an international project training psychology students in forensic mental health practice.

## *Departmental Anti-Racism Book Club*

Faculty, postdoctoral fellows, graduate students, and staff are invited by the Education and Training Subcommittee to focus personal efforts on individual reading and reflection around racism. Below are recommendations for two books and we ask that you select and read one of these before the beginning of the Spring semester. In Spring, small group discussions will be held to discuss the readings. Mark your calendars to finish reading by January 19, 2021.

**So You Want to Talk About Race?** by Ikeoma Oluo, 2018. Oluo's highly-praised book covers contemporary racial issues in language that is accessible and easy to follow and provides advice to white people on how to have difficult conversations about race, no matter how uncomfortable it may be. Each chapter title revolves around one contemporary racial issue in America; analysis and personal experience is provided in that same chapter. The book provides valuable insights for those who hope not only to change the systems around them, but also those who hope to change minds and hearts around them. [Purchase](#)

**How to be an Anti-Racist** by Ibram Kendi, 2020. Kendi argues we must be actively anti-racist, because the only other alternative is racism—and that building more equitable systems results in a more just world which is richer and fuller for everyone. He weaves his own personal story of racial experiences, learning and development with discussions of racially-related ideas within history, science, and ethics in an effort to encourage the reader to reflect on ideas of race and power they hold and encounter, where those ideas come from, how they are institutionalized and internalized, and why it is so important to be actively anti-racist. Questions may be directed to Education and Training Subcommittee Chairs, Drs. Donald Baucom (don\_baucom@unc.edu) and Kristen Lindquist (kristen.lindquist@unc.edu).
